

## Section 2(ee) Recommendation

### RESTRICTED USE PESTICIDE Due to Toxicity to Fish and Aquatic Organisms

For retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

Date: January 14, 2002

Product: FORCE 3G Insecticide  
EPA Reg. No. 100-1075  
(Zeneca EPA Reg. No. 10182-373)

Use: For the control of Northern corn rootworm larvae in the first year of corn.

States: South Dakota, Minnesota (West of I-35) and Iowa (West of I-35 and North of I-80)

#### DIRECTIONS FOR USE

Apply FORCE 3G Insecticide at the rates recommended below in Field Corn (first year corn only) to control Northern Corn Rootworm larvae. This 2(ee) recommendation is not in effect for controlling Northern Corn Rootworm larvae or any other pests in corn where corn was planted the previous year.

CROP	TARGET PEST	RATE	REMARKS
		oz/1000 Ft. of Row	
FIELD CORN	Northern Corn Rootworm Larvae	3 to 4 T-Banded or In-furrow	For control of Northern Corn Rootworm larvae in first year field corn only. <b>T-Band:</b> place granules over the row behind the planter shoe and in front of the press wheel. Incorporate into top 1" of soil. <b>In-furrow:</b> place granules directly in the seed furrow behind the planter shoe and in front of the press wheel.

All applicable directions, restrictions, and precautions on the EPA-registered label for Force 3G are to be followed.

This recommendation should be in the possession of the user at the time of pesticide application.

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This FIFRA Section 2(ee) bulletin contains new or additional directions for use of this product that may not appear on the package label. Read and carefully observe precautionary statements plus all other information appearing on the product label.
